## PERSONAL SUMMARY

---

I am a dedicated professional, committed to excellence in every task I undertake. With a strong work ethic and a passion for continuous learning, I do well in unfamiliar and challenging environments. I am a team player. My excellent communication skills allow me to convey ideas clearly. I am driven by a genuine desire to contribute meaningfully to any project or organization I am a part of, always striving for excellence in my work.

## WORK EXPERIENCE

---

### ERICKO'S SOFTECH

Graphic Designer and Café Attendant

**Spintex, Ghana**

January 2022 - December 2022

- Providing comprehensive IT support to customers upon their arrival at the café, encompassing a range of services such as typing, browsing, and conducting research.
- Aiding customers in tasks such as downloading, printing, scanning, as well as effectively managing document attachments and email correspondence.
- Crafting visually appealing promotional materials including flyers, business cards, and advertisements.
- Addressing technical challenges encountered by customers pertaining to their electronic devices, offering prompt assistance and resolution

### GHANA WEB DESIGNS

Graphic Designer, WordPress Web Developer, October,2023

**Accra, Ghana**

- Creating attractive promotional materials for the client's website.
- Developing complete operational website for clients with WordPress.
- Increasing client's business website visibility on the internet through SEO tools.

### MPACT CONSULT

Frontend Developer Intern, October,2023

- Worked with a team of developers on projects.
- Brainstorming project ideas and UI enhancement ideas.

## Ghana Tech Lab –Training Participant

- I joined a training program organized by Ghana Tech Lab to equip participants with knowledge in data analytics with Microsoft Excel, SQL and Power BI.
- I worked with a group of fellow participants to carry out projects assigned to us.
- I acquired the skills to load data, clean and transform data and then visualize it.

## MERISKILL – Data Analyst Intern

- I worked on three projects as part of the internship program.
- First project on analysing sales data and drawing insights using Power BI.
- Second, on an HR data to analyse the attrition level of employees using Power BI.
- And lastly, was developing a diabetes prediction from developing correlations and training models for the prediction using python and Django with PyCharm and Jupyter as my tools.

## SKILLS and TOOLS

---

- |                  |              |            |
|------------------|--------------|------------|
| • Graphic Design | • CSS        | • MySQL    |
| • HTML           | • JAVASCRIPT | • REACT JS |
| • WORDPRESS      | • LARAVEL    | • FLUTTER  |

## PROJECTS

---

- A Todo web app with HTML, CSS and JS. The user inputs some activities that are yet to be accomplished at a particular time. The user also has the ability to edit and delete todos.
- Built landing pages using HTML, CSS and JS, enabling mobile responsiveness and user interactivity.
- A dictionary web app that utilises APIs. I used fetch.js to get all the JSON data needed to provide meaning for any word in the dictionary.
- An emergency service app with flutter (UI). An academic project(app) that can contact the emergency services immediately when there is an emergency.
- A customized learning app clone

**Most of my projects are on the GitHub account provided above.**
